Karratha, Western Australia

Value
AUD 2.4 million

Contract Period
August 2008 - April 2009

Hours/Safety Statistics
2,500 hours, LTIRF: 0.0

Peak Manning
Not Available

AGC was awarded a contract from Allseas Contractors for the supply, fabrication, assembly and testing of 2 subsea Tee pipe spools (20" diameter x 10" diameter), removable protection frame and articulated mud mats.

This included factory acceptance testing (FAT) & SIT testing and surface treatment.

The XENA Tee spools were required to be welded, non-destructive tested, hydrotested and insulated to DNV

specifications.

Additionally, AGC was required to design, fabricate and test a lifting and transport frame for the XENA Tee assembly.
